CUTLINE: Perry Homes builds in more than 50 Houston-area communities, offering homebuyers hundreds of floorplan designs to choose from.

PERRY HOMES SPOTLIGHTS DESIGN CHOICES FOR HOMES AVAILABLE TO BUILD

With more than 150 unique floorplan designs available, home buyers can have their choice when they choose to build a new home with Perry Homes.

A team of licensed Texas architects conduct ongoing reviews to ensure that Perry Homes provides design options that appeal to wide variety of homebuyers and reflect current customers' requests. These in-house designers introduce several new floorplan choices each month, always keeping homebuyers' needs in mind.

When building a home from the ground up, Perry Homes continues to offer home buyers an array of choices. In addition to choosing a design that fits their needs, home buyers can also select their homesites and can personalized numerous options such as paint color, decorating features and flooring. Home buyers may also choose to add a third garage bay, a library, an exercise room or a home theatre room, if the design allows space for available upgrades.

Perry Homes commits to its home buyers to provide a quality-built home completed in an average of four months or less from the date construction begins, not the typical six months or more. And, once the home is complete, homeowners will experience the satisfaction of living in a home that is built especially for them.

In addition, home buyers who choose to build a home with Perry Homes are invited to participate throughout construction with scheduled walk-throughs and meetings. Home buyers can visit their new homesites and see, from the ground up, the quality that Perry Homes builds into every home. Perry Homes uses high-performance materials and products including Sherwin Williams paint, Honeywell thermostats and GE appliances, to name a few.

As a result of quality construction and materials, Perry Homes offers a two-year Workmanship Warranty – double the industry standard. This expanded warranty is part of the 10-year Texas home warranty.

Perry Homes builds one-, two- and three-story homes and townhomes, priced to the \$700,000s and ranging from 1,200 to more than 7,200 square feet. Buyer incentives are available in many communities. For more information, see a Perry Homes Sales Professional or visit www.perryhomes.com.
